KAISER PERMANENTE® NORTHERN CALIFORNIA INSTITUTIONAL REVIEW BOARD

OFFICIAL COMMUNICATION FROM THE KPNC IRB

January 05, 2018

Stacy Sterling, DrPH Principal Investigator Division of Research

Re: An Evaluation of the National Zero Suicide Model Across Learning Healthcare Systems

On December 26, 2017, a designated member of the Kaiser Permanente Northern California Institutional Review Board (KPNC IRB) approved the request to cede review authority and continuing oversight of the above study to KPWA.

To be clear, the KPNC IRB has not approved the study; rather, the KPNC IRB approved the request to cede review authority and continuing oversight to the KPWA IRB. A study approval letter from the KPWA IRB has been received, which indicates that the KPWA IRB agreed to accept review authority and continuing oversight for this study from Kaiser Permanente Northern California (KPNC).

All proposed changes to the protocol, consent form, and any other study materials as well as continuing review reports are to be sent to the KPWA IRB for review. If there is a significant change in this study, please contact the KPWA IRB for guidance regarding notification to the KPNC IRB.

You must report to the KPNC IRB any unanticipated problems occurring at this site, and you must also report to the KPNC IRB when you have completed your study.

Sincerely,

Kaiser Permanente Northern California Institutional Review Board
